

Transcendence: Project Submission Process

Congratulations for reaching Transcendence!

To complete the common core, you need to successfully validate Transcendence. To do so in a timely manner, students are required to follow the below processes in the **order cited**.

Note:

Students in the accredited pathway are required to submit additional **mandatory** tasks. These tasks have been previously shared on the intranet in the “Transcendence: Additional Project Requirements” document. If a team consists of both accredited and non-accredited pathway students, then all students within the team **must** contribute to the additional tasks.

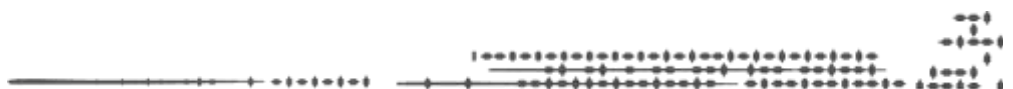

1. Submission of additional project requirements

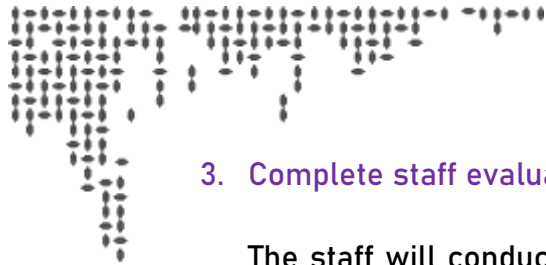

It is **mandatory** that the student team **must** have the additional project requirements documentation completed **prior** to the submission of the project and uploaded to the Transcendence team on Microsoft Teams.

2. Complete 3 peer to peer evaluations

Staff will conduct **observations** of the peer to peer evaluations and as a result, it is **mandatory** that the student team and the evaluators communicate with the Bocal **prior** to the evaluations to give staff adequate time to ensure that they can participate in the observations. Peer to peer evaluations for the Transcendence project **can only** materialize in the **presence of staff**.

Transcendence is a team project and therefore, all student teams **must** undergo 3 peer to peer evaluations. All students within a team **must** be evaluated at the **same time** and the evaluators **must** direct specific questions towards each student to ensure that they have appropriate knowledge and competence to have completed the project.

3. Complete staff evaluation

The staff will conduct an evaluation with the student team no later than **7 days** after the completion of the peer to peer evaluations. The findings of the staff evaluation will be submitted to the Bocal for review. The staff evaluator will choose the date and time of the staff evaluation. The student team **must** cooperate and accordingly coordinate with the staff.

4. Formal presentation

The student team **must** present their work as a 30 minute formal presentation to a staff team no later than **7 days** after the staff evaluation. The staff team will choose the date and time of the formal presentation.
